Join us for the Recovery Together

Co-Design Workshop

A free peer education and recovery program for people who experience mental health, alcohol, or drug related issues

Recovery Together is an evidence-based program under development by the NT Lived Experience Network for people who experience mental health, alcohol, or drug related issues.

We would like people with **lived experience** of mental health and/or alcohol or drug related issues to join us for a public **Co-Design Workshop**.

At the **Co-Design Workshop** we would like you to provide your thoughts and views about the Recovery Together program's design, planned activities and how we can best evaluate it.

Co-Design Workshop

Date: Saturday the 24th of September, 2022

Time: 1 pm to 4 pm

Venue: Response Employment and Training
3/66 Coonawarra Road, Winnellie

To Register (or for further info):
